4. Who am I investing with?

Please find below the relevant parties involved in the Fund:-

The Manager – Nomura Asset Management Malaysia Sdn. Bhd. (Reg. No. 200601028939 (748695-A))

The Trustee – Deutsche Trustees Malaysia Berhad (Reg. No. 200701005591 (763590-H))

The Manager's Delegate – KFin Technologies (Malaysia) Sdn. Bhd. (Reg. No. 201601007727 (1178655-U))

5. What are the possible outcomes of my investment?

The Fund shall invest primarily in fixed income securities with sound and quality credit fundamentals. The Fund would largely maintain a buy and hold strategy for its core holdings.

For liquidity purpose, the Fund may also invest in fixed income instruments which are relatively liquid in nature including deposit placements with banks and debt securities issued by the Malaysian Government and denominated in Ringgit Malaysia.

The permitted investments will be rebalanced during appropriate times such as when there is a change in the credit fundamentals to ensure stable capital growth and consistent income stream to investors.

During any unfavourable credit event, the Manager shall exercise its discretion to act based on the best interest of the Fund. The Manager could continue to hold the affected security should the Manager believes it to be more beneficial to the Fund. The Manager will provide updates on their strategies in the periodic reporting to the investors.

KEY RISKS

6. What are the key risks associated with this Fund?

General Risks

- **Financing risk**

Investors should assess the inherent risk of investing with borrowed money, which should include the following:

- The ability to service the financing and the effect of interest rates on the financed amount; and
- If units are used as collateral, investors may be required to provide additional collateral should the Fund's prices fall below a certain level.

- **Fund Management risk**

The performance of the Fund depends on the experience and expertise of the investment managers. The failure to exercise due care or any lapses in judgement on the part of the Manager may jeopardise the performance of the Fund.

- **Non-compliance risk**

This is the risk of the Manager or the Trustee, not complying with the Deed of the Fund and all applicable laws or guidelines issued by the regulators whether intentionally or through negligence. The magnitude of such risk and its impact on the Fund and/or Unit Holders are dependent on the

nature and severity of the non-compliance. For example, an oversight of the Manager causes the non-compliance which may adversely affect the investment of the Fund especially if the investment of the Fund has to be disposed at a lower price to rectify the non-compliance.

- **Inflation Risk**

Inflation risk is the risk of potential loss in the purchasing power of your investment due to a general increase of consumer prices. Inflation erodes the nominal rate of your return giving you a lower real rate of return. Inflation is thus one of the major risks to you over a long term period and results in uncertainty over the future value of investments. You are advised to take note that the Fund is not constituted with the objective of matching the inflation rate of Malaysia. The Fund has a specific objective that it seeks to achieve without having regard to the inflation rate. If your investment objective is to match the inflation rate (so as not to lose your purchasing power over time), this Fund may not be suitable for you.

- **Other variable factors risk**

The performance of the Fund is driven by many variable factors and the return is not guaranteed. These include financial market conditions, interest rate fluctuation, stability of local currency and general economic environment. The prices of units may go down as well as up. Similarly, distribution (if any) may vary from year to year depending on the performance of the Fund.

Specific Risks

- **Issuer/ credit risk**

Placement of deposits with financial institutions may also attract such risk. A plausible scenario, though highly unlikely may occur whereby the financial institution suffers severe losses and there is no monetary assistance from any third party. In this highly unlikely scenario, the Fund may be left with the only choice of suing the financial institution.

Investing in fixed income or money market instruments are also subject to this risk. In the event that the issuer of such instrument defaults in payment at maturity, the value of the Fund may be adversely affected. This may be managed by holding a diversified portfolio of fixed income and money market instruments and monitoring the issuers' fundamentals on an ongoing basis.

- **Reinvestment Risk**

This is a risk that future proceeds (profit and/or capital) are reinvested at a lower potential interest rate. Reinvestment risk is especially evident during periods of falling interest rate.

- **Interest Rate risk**

This is the risk that changes in interest rates may adversely affect the valuation of the Fund's investments. Where interest rate rises, the price of the Fund's investments in fixed income instruments would generally decline and this may lower the overall market value of the said investments. The reverse may apply if interest rates fall.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not always possible to protect your investments against all risks. Investors should assess the merits and risks when investing in the Fund or obtain professional advice before subscribing to the Fund.

FEES & CHARGES

7. What are the fees and charges involved?

There is no Sales Charge, Switching Fee or Repurchase Charge. However, please note that there are fees and charges which are indirectly charged to you should you decide to invest in this Fund as follows:-

- Management fee of up to 0.25% per annum of the NAV of the Fund;
- Trustee fee of 0.03% per annum of the NAV of the Fund subject to a minimum of RM12,000.00 per annum; and
- Any other expenses in relation to the administration and operations of the Fund.

For more information, kindly refer to the Fund's Information Memorandum on fees, charges and expenses.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The Fund will be valued at the close of every Business Day. You may obtain the NAV and NAV per Unit of the Fund from the Manager's website – <https://www.nomura-asset.com.my>

You may also contact us at 03-2027 6688 or email to marketing@nomura-asset.com.my

9. How can I exit from this Fund and what are the costs involved?

Unit Holders should be aware that there are no cooling-off rights available for Unit Holders of the Fund.

Unit Holders may liquidate their investments partially or wholly by requesting the Manager to repurchase their Units; requests are irrevocable. Units will be repurchased at the NAV per Unit as at the close of the Business Day when the request is received. Repurchase proceeds will be paid to a Unit Holder within three (3) Business Day after the day the repurchase request is received by the Manager and provided that all documentations are completed and verifiable or such other period as may be agreed by the Manager and the Trustee in the event the Fund do not have sufficient cash or other liquid assets to make payment.

There is generally no restriction on the frequency of repurchase; however, there a minimum repurchase amount of 250,000 Units for each repurchase application or such other amount as the Manager may decide from time to time. If a Unit Holder is holding less than 250,000 Units or such amount as the Manager may decide from time to time, the Manager is entitled, but not compelled, to consider that a repurchase request has also been made in respect of the remaining Units and can compulsorily repurchase the same.

If due to circumstances beyond the Manager's control and in the Manager's sole opinion, liquidation of the assets of the Fund for the purpose of raising proceeds for repurchase request cannot be effected without prejudicing the interests of Unit Holders, the timing for payment of such repurchase proceeds may be extended if the Manager considers it necessary in the interests of the Unit Holders, where the timing for payment of such repurchase proceeds shall not exceed twenty-one (21) days unless a longer period is agreed between the Manager and the Trustee.

However, if the request to the Trustee to repurchase or cancel the Units results in the sale of assets of the Fund, or sale of assets which cannot be liquidated at an appropriate price or on adequate terms and is as such not in the interest of existing Unit Holders, the Trustee may refuse the said request in accordance to the Deed.

Units can be sold on any Business Day at the Manager's office between 9:00 am to 5:30pm. However, the cut off time is 4:00 pm which means applications received after 4:00 pm will be deemed to have been received on the following Business Day.

Please refer to the Fund's Information Memorandum for further details.
