1. FUND PROFILE

1.1 Fund Name

Nomura i-Income Fund (“Fund”)

1.2 Type and Category of Fund

Income – Fixed Income (Islamic)

1.3 Duration of the Fund

The Fund is an open-ended fund.

1.4 Investment Objectives

The Fund seeks to provide investors with regular income distributions through investments in Islamic deposits, Islamic money market instruments and sukuk.

1.5 Distribution Policy

Distribution of income, if any, is on quarterly basis and may be made from realised gains, realised income and/or out of capital.

1.6 Performance Benchmark

12-month Malayan Banking Berhad General Investment Account Rate (“Benchmark”).

2. FUND PERFORMANCE

Notes:

* Prior to 1 October 2022, the Fund was managed as a single class wholesale fund. Hence, the aforementioned Fund data prior to 1 October 2022 reflects the data of the Fund as a single class wholesale fund which are subject to guidelines, restrictions and risks applicable to wholesale fund.

(1) Figures shown as ex-distribution.

(2) Total Return of the Fund and its Benchmark for a period are calculated based on the absolute return of the Fund for that period. The calculation of the Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund. The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distributions payable (if any) during the stipulated period:

- **Capital Return**= {NAV per Unit End / NAV per Unit Beginning – 1} x 100
- **Income Return**= {Income Distribution per Unit / NAV per Unit Ex-Distribution} x 100

(3) Total Expense Ratio (“TER”) is calculated based on the total fees and expenses incurred by the Fund divided by the average net asset value of the Fund for the financial period calculated on daily basis.

(4) Portfolio Turnover Ratio (“PTR”) is calculated based on the total acquisitions and total disposals of investment securities of the Fund for the financial period divided by the average net asset value of the Fund for the financial period calculated on daily basis.

2.2 Average Total Return of the Fund ¹

Fund – Class I

	1 Year to 30 Jun 2023	3 Years to 30 Jun 2023	5 Years to 30 Jun 2023

Total Return (%) ²	0.61	0.83	7.01	10.35	6.07
Benchmark (%)	2.22	1.95	2.50	3.45	3.54

Source: Refinitiv Lipper

Notes:

- (1) Prior to 1 October 2022, the Fund was managed as a single class wholesale fund. Hence, the aforementioned Fund data prior to 1 October 2022 reflects the data of the Fund as a single class wholesale fund which are subject to guidelines, restrictions and risks applicable to wholesale fund.
- (2) Annual Total Return of the Fund and its Benchmark for a period are calculated based on the absolute return of the Fund for that period. The calculation of the Annual Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund. Further details on basis of calculation and assumption made in calculating returns is as follows:

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distributions payable (if any) during the stipulated period:

- **Capital Return** = {NAV per Unit End / NAV per Unit Beginning – 1} x 100
- **Income Return** = {Income Distribution per Unit / NAV per Unit Ex-Distribution} x 100
- **Total Return** = (1 + Percentage Growth)^{1/n} – 1

Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

3. MANAGER'S REPORT

Performance of Nomura i-Income Fund from 5 January 2017* to 30 June 2023

Fund – Class I

Fund – Class R

* The Fund commenced on 8 November 2012. However, there were no units in circulation for the period between 21 March 2016 and 4 January 2017. As such, the Fund's performance figures are only available from 5 January 2017 onwards.

Benchmark: 12-month Malayan Banking Berhad General Investment Account Rate

Source: The calculation of the Annual Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund.

3.1 Performance for the period from 1 January 2023 to 30 June 2023

Fund – Class I

For the period under review from 1 January 2023 to 30 June 2023, Class I has registered 3.68% return. Compared to the Benchmark return of 1.21%, Class I has outperformed the Benchmark by 2.47%. The Net Asset Value (“NAV”) per unit of Class I as at 31 December 2022 was RM1.0871 compared to the NAV per unit as at 30 June 2023 of RM1.1058. On the total NAV basis, Class I’s NAV stood at RM345.61 million as at 30 June 2023.

Fund – Class R

For the period under review from 1 January 2023 to 30 June 2023, Class R has registered 3.59% return. Compared to the Benchmark return of 1.21%, Class R has outperformed the Benchmark by 2.38%. The Net Asset Value (“NAV”) per unit of Class R as at 31 December 2022 was RM1.0866 compared to the NAV per unit as at 30 June 2023 of RM1.1044. On the total NAV basis, Class R’s NAV stood at RM59.68 million as at 30 June 2023.

3.2 Review of Market for the period from 1 January 2023 to 30 June 2023

Government Investment Issues (“**GII**”) yield curve flattened dramatically over the period, with the GII 10Y seeing yields fall by 25bps to 3.87% in 1H2023 while the GII 30Y experienced a 48bps yield decline, ending the period at 4.25%. The long-end continued to decline in line with the flattening trend seen globally as major central banks approach the end of their rate hike cycles. Credit spreads tightened aggressively as domestic investors hunted for yield.

In its May Monetary Policy Committee meeting, Bank Negara Malaysia (“**BNM**”) surprised the market with a 25 bps rate hike, raising the Overnight Policy Rate (“**OPR**”) to 3.00%. This came in after keeping the OPR unchanged during the last two meetings since Jan-23. While global economy continues to be supported by strong labour market conditions and a stronger-than-expected rebound of China’s economy, BNM highlighted that global growth outlook remains subject to downside risks. Domestically, BNM sounded optimistic on the domestic economy as growth is expected to continue to be driven by domestic demand, supported by resilient labour market conditions and pickup in tourist arrivals. Meanwhile, though both headline and core inflation are expected to trend downwards this year, inflation risk remains tilted to the upside subject to changes in domestic subsidies policies, financial market developments, and global commodity prices. All in all, with the 25 bps rate hike, the OPR has returned to pre-pandemic level. BNM judged that the current monetary policy stance is slightly accommodative and remains supportive of the economy and any future monetary policy decisions will be dependent on domestic growth momentum.

Malaysia’s gross domestic product (GDP) remained commendable, though moderated, at +5.6% in 1Q2023 (4Q2022: +7.1%). Growth continued to be anchored by the services sector which expanded by 7.3% (4Q2022: +9.1%) amid recovery in tourist arrivals and resilient domestic labour market condition. Meanwhile, all other economic sectors grew further, albeit at a slower pace. In particular, improvements in domestic economy was supported by the manufacturing (+3.2%) and construction (+7.4%) sectors, followed by the mining (+2.4%) and agriculture (+0.9%) sectors. On the demand side, private consumption (+5.9%) remained as the key driver of Malaysia’s economic growth. Investments and net trade contributed positively to the headline GDP while government spending contracted due to lower spending on supplies and services.

3.3 Investment Outlook

Global inflation pressure continues to ease in 2023 as central banks maintained their restrictive policies and commodity prices began to normalise. However, labour markets in the US and EU continue to remain fairly tight, threatening to keep core inflation levels elevated and thus keep central banks on a hawkish footing. Nevertheless given that interest rates currently stand at multi-decade highs, major central banks have slowed down their pace of hiking and are likely to pause by the end of 2023. As such, this should give global bond markets some respite heading into 2024.

3.4 Strategies Employed for the period from 1 January 2023 to 30 June 2023

We continue to favour holding corporate bonds in the 5-10 year portion of the curve, owing to the steepness of the credit curve there. Aside from that, we view BNM approaching the end of its hiking cycle by 2H2023 to be constructive for the domestic bond market.

3.5 Asset Allocation

Asset Allocation / Portfolio Composition	30 Jun 2023	31 Dec 2022	31 Dec 2021	31 Dec 2020
Government Investment Issue	36.29%	20.73%	24.43%	36.84%
Islamic commercial paper/ Sukuk	49.12%	65.90%	72.87%	61.38%
Cash and other net current assets / liabilities	14.59%	13.37%	2.03%	1.78%
Collective Investment Scheme	-	-	0.68%	-
Total	100.00%	100.00%	100.00%	100.00%

There were no significant changes on the Fund's asset allocation during the financial period under review.

3.6 Securities Lending or Repurchase Transactions

The Fund has not undertaken any securities lending or repurchase transactions during the financial period under review.

3.7 Income Distribution

The Manager has distributed a total of gross/net distribution of RM0.0210 per unit for unit holders of each Class I and Class R over the financial period ended 30 June 2023.

The Net Asset Value per Unit prior and subsequent to the distributions were as follows:

Fund – Class I

Cum-Distribution Date	Cum-Distribution (RM)	Ex-Distribution Date	Ex-Distribution (RM)	Distribution per Unit (RM)
15-Mar-2023	1.1073	16-Mar-2023	1.0996	0.0078
15-Jun-2023	1.1184	16-Jun-2023	1.1054	0.0132

Fund – Class R

Cum-Distribution Date	Cum-Distribution (RM)	Ex-Distribution Date	Ex-Distribution (RM)	Distribution per Unit (RM)
15-Mar-2023	1.1065	16-Mar-2023	1.0988	0.0078
15-Jun-2023	1.1171	16-Jun-2023	1.1041	0.0132

3.8 Details of Any Unit Split Exercise

There was no unit split exercise during the financial period under review.

3.9 Significant Changes in the State of Affairs of the Fund

There were no significant changes in the state of affairs of the Fund during the financial period under review.

However, please find the latest changes to the Manager's board of directors as follows:

Mr. Leslie Yap Kim Loong
 Mr. Atsushi Ichii
 Ms. Chooi Su May
 Mr. Tomoya Kawagishi (appointed on 7 August 2023)
 Mr. Johari Bin Abdul Muid*
 Ms. Julia Binti Hashim*

* *Independent director*

3.10 Circumstances that Materially Affect Any Interest of Unit Holders

There were no circumstances that had materially affected the interest of the unit holders during the financial period under review.

3.11 Cross Trades Transactions

During the financial period under review, seventeen (17) cross trades were conducted between the Fund and other funds / accounts managed by the Manager and/or the Manager's related company.

	<u>Total Value of trades (RM)</u>
Nomura Ringgit Bond Fund 1	4,977,550
Nomura Ringgit Bond Fund 2	9,592,650
Private Mandate	62,090,990
Total	76,661,190

All transactions were in the best interest of the Fund and executed through RHB Investment Bank Berhad on an arm's length and fair value basis.

3.12 Soft Commissions Received From Brokers

The Manager did not receive any soft commission during the financial period under review.

This Semi-Annual Report is prepared by the Manager of the Fund, Nomura Asset Management Malaysia Sdn. Bhd., for information purposes only. Past earnings of the Fund's distribution record is not a guarantee or reflection of the Fund's future earnings or future distributions. Investors are advised that unit prices, distributions payable and investment returns may go down, as well as up.

NOMURA i-INCOME FUND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED)

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reported financial year. It also requires the Manager to exercise their judgment in the process of applying the Fund’s accounting policies. Although these estimates and judgment are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note I.

(i) Standards and amendments to existing standards effective 1 January 2023

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2023 that have a material effect on the financial statements of the Fund.

(ii) New standards, amendments and interpretations effective after 1 January 2023 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

B PRESENTATION AND FUNCTIONAL CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia, which is the Fund’s presentation and functional currency.

C INCOME RECOGNITION

Profit income from unquoted sukuk and Islamic deposits with licensed financial institutions are recognised on an accrual basis using the effective profit method.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

NOMURA i-INCOME FUND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

C INCOME RECOGNITION (CONTINUED)

Realised gain and loss on sale of unquoted sukuk is measured by the difference between the net disposal proceeds and the carrying amounts of the Shariah-compliant investments (adjusted for accretion of discount or amortisation of premium).

Dividend income from Islamic collective investment scheme is recognised when the Fund's right to receive payment is established. Dividend income is received from financial assets measured at FVTPL.

D TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable income earned during the financial year.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its Shariah-compliant investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Fund's sukuk are solely principal and profit. However, these Shariah-compliant securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

Investments in collective investment scheme have contractual cash flows that do not represent SPPI, and therefore are classified as fair value through profit or loss.

The Fund classifies amount due from Manager and cash and cash equivalents as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to Manager, amount due to Trustee, amount due to Shariah Adviser, distribution payable and other payables and accruals as financial liabilities measured at amortised cost.

NOMURA i-INCOME FUND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value.

Financial liabilities are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the Shariah-compliant financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the statement of comprehensive income in the financial year in which they arise.

Investments in Islamic collective investment schemes are valued at the last published net asset value ("NAV") per unit at the date of the statement of financial position.

Unquoted sukuk denominated in Ringgit Malaysia are revalued on a daily basis based on fair value prices quoted by a bond pricing agency ("BPA") registered with the Securities Commission Malaysia ("SC") as per the SC's Guidelines on Unit Trust Funds. Where such quotations are not available or where the Manager is of the view that the price quoted by the BPA for a specific unquoted sukuk differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager:

- (a) Records its basis for using a non-BPA price;
- (b) Obtains necessary internal approvals to use the non-BPA price; and
- (c) Keeps an audit trail of all decisions and basis for adopting the market price.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

NOMURA i-INCOME FUND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(iii) Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these Shariah-compliant instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

F CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balance and Islamic deposits with licensed financial institutions that is readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

G CREATION AND CANCELLATION OF UNITS

Prior to 1 October 2022, the Fund classified its puttable instruments as equity in accordance with MFRS 132 (Amendment) "Financial Instruments: Presentation". However, the amendment requires puttable financial instruments that meet the definition of equity to be classified as financial liability when certain strict criteria are not met. Those criteria include:

- the puttable instrument must entitle the unit holder to a pro-rate share of net assets;
- the puttable instrument must be the most subordinated class and class features must be identical;
- there must be no contractual obligations to deliver cash or another financial assets other than the obligation on the issuer to repurchase; and
- the total expected cash flows from the puttable instrument over its life must be based substantially on the profit or loss of the issuer

NOMURA i-INCOME FUND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

G CREATION AND CANCELLATION OF UNITS (CONTINUED)

Those conditions were not met when Class I and Class R were issued on 1 October 2022 as Class I and Class R do not have identical features.

The Fund issues cancellable units, in two classes of units, known respectively as the Class I and Class R, which are cancelled at the unitholders' option and do not have identical features subject to restrictions as stipulated in the Prospectus and SC's Guidelines on Unit Trust Funds. The units are classified as financial liabilities.

Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at each financial period if the unitholder exercises the right to put the unit back to the Fund.

Units are created and cancelled at the unitholder's option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net asset attributable to unitholders of respective classes with the total number of outstanding units of respective classes.

H FINANCE COST

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a finance cost in the statement of comprehensive income, when they are appropriately authorised and no longer at the discretion of the Fund. A proposed distribution is recognised as a liability in the year in which it is approved by the Trustee.

I CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Funds' results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Manager is of the opinion that there are no accounting policies which require significant judgement to be exercised.

Estimate of fair value of unquoted sukuk

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC's Guidelines on Unit Trust Funds.

Ringgit-denominated unquoted sukuk are valued using fair value prices quoted by a bond pricing agency ("BPA"). Where the Manager is of the view that the price quoted by BPA for a specific unquoted sukuk differs from the market price by more than 20 basis points, the Manager may use market price, provided that the Manager records its basis for using a non-BPA price, obtains necessary internal approvals to use the non-BPA price. Refer to Note E for further explanation.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED)

1 INFORMATION ON THE FUND

Nomura i-Income Fund (the "Fund") was constituted pursuant to the execution of a Master Deed dated 11 June 2012. The Fund has changed its name from Nomura i-Money Market Fund to Nomura i-Income Fund as amended by the First Supplemental Deed dated 23 August 2013 between Nomura Islamic Asset Management Sdn Bhd and Deutsche Trustees Malaysia Berhad (the "Trustee").

The Fund was launched on 7 November 2012 and will continue its operations until being terminated by the Manager or the Trustee as provided under Clause 25 of the Deed.

The Fourth Supplemental Deed dated 14 June 2022 in respect of the Fund (the "Deed") was entered into between Nomura Asset Management Malaysia Sdn Bhd (the "Manager"), Nomura Islamic Asset Management Sdn Bhd, and the Trustee to govern the Fund and replace in its entirety the Initial Deeds and the provision of the Initial Deeds.

The Fund was converted into a Unit Trust Fund and the Manager has been changed to Nomura Asset Management Malaysia Sdn Bhd from Nomura Islamic Asset Management Sdn Bhd on 1 October 2022 and will continue its operations until terminated by the Manager or the Trustee as provided under the Deed.

The Fund seeks to provide investors with regular income distributions through investments in Islamic deposits, Islamic money market instruments and sukuk.

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Financial instruments are as follows: (continued)

<u>Note</u>	At fair value through <u>profit or loss</u> RM	At <u>amortised cost</u> RM	<u>Total</u> RM
<u>As at 30.06.2023 (continued)</u>			
<u>Financial liabilities</u>			
Accrued management fee	-	84,418	84,418
Amount due to Manager	-	317,450	317,450
Amount due to Trustee	-	9,972	9,972
Amount due to Shariah Adviser	-	3,319	3,319
Other payables and accruals	-	12,844	12,844
Total	-	428,003	428,003

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), liquidity risk, credit/default risk, capital risk and fund management risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Deed and SC's Guidelines on Unit Trust Funds.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk

(a) Price risk

Price risk is the risk that the fair value of an investment of the Fund will fluctuate because of changes in market prices (other than those arising from interest rate risk).

The Fund's overall exposure to price risk are as follows:

	As at <u>30.06.2023</u> RM
Financial assets at fair value through profit or loss*	<u>346,175,902</u>

* Includes profit receivable of RM3,668,682.

The table below summarises the sensitivity of the Fund's NAV and profit after tax to movements in prices of Shariah-compliant investments. The analysis is based on the assumptions that the price of the investments fluctuates by 5% with all other variables held constant.

<u>% Change in price</u>	<u>Market value</u> RM	<u>Impact on loss</u> <u>after tax/NAV</u> RM
<u>As at 30.06.2023</u>		
+5%	359,632,581	17,125,361
-5%	<u>325,381,859</u>	<u>(17,125,361)</u>

(b) Interest rate risk

In general, when interest rates rise, valuation for unquoted sukuk will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise when interest rates fall. However, investors should be aware that should the Fund hold an unquoted sukuk till maturity, such fluctuations would dissipate as it approaches maturity, and thus the growth of the NAV shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

This risk is crucial since sukuk portfolio management depends on forecasting interest rate movements. Sukuk with longer maturity and lower profit rates are more susceptible to interest rate movements.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (continued)

(b) Interest rate risk (continued)

Investors should note that sukuk is subject to interest rate fluctuations. Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to make payments of interest and principal, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The above interest rate is a general economic indicator that will have an impact on the management of the Fund regardless whether it is an Islamic fund or otherwise. It does not in any way suggest that the Fund will invest in conventional financial instruments. All the investments carried out for the Fund are in accordance with Shariah requirements.

The table below summarises the sensitivity of the Fund's NAV and loss after tax to movements in prices of sukuk held by the Fund as a result of movement in interest rates. The analysis is based on the assumptions that the interest rates increased and decreased by 1% with all other variables held constant.

	<u>Impact on loss after tax/NAV</u>
	As at
	<u>30.06.2023</u>
	RM
<u>% Change in interest rate</u>	
+ 1%	(791,880)
- 1%	<u>795,174</u>

The Fund's Islamic deposits with licensed financial institutions are short term in nature. Therefore, exposure to interest rate fluctuations is minimal.

Liquidity risk

The Fund maintains sufficient level of Islamic liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unitholders. Islamic liquid assets comprise cash, Islamic deposits with licensed financial institutions, and unquoted sukuk which are capable of being converted into cash within 7 days. The Fund aims to reduce its liquidity risk by maintaining a prudent level of Islamic liquid assets.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining year as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Liquidity risk (continued)

	<u>Less than 1 month</u> RM	<u>Between 1 month to 1 year</u> RM	<u>Total</u> RM
<u>As at 30.06.2023</u>			
Accrued management fee	84,418	-	84,418
Amount due to Manager	317,450	-	317,450
Amount due to Trustee	9,972	-	9,972
Amount due to Shariah Adviser	-	3,319	3,319
Other payables and accruals	-	12,844	12,844
	<u>411,840</u>	<u>16,163</u>	<u>428,003</u>

Credit/default risk

Credit risk refers to the ability of an issuer or a counterparty to make timely payments of profit or principals payment on the maturity date. This may lead to a default in the payment of principal and profit and ultimately a reduction in the value of the Fund. In the case of the Fund, the Manager will endeavor to minimise the risk by selecting only issues with prescribed and acceptable credit ratings.

Credit risk arising from placements of Islamic deposits with licensed financial institutions is managed by ensuring that the Fund will only place Islamic deposits in reputable licensed financial institutions.

The settlement terms of the proceeds from the creation of units' receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

For unquoted sukuk, the Manager regularly reviews the rating assigned by the issuer so that necessary steps can be taken if the rating falls below those described by the Deed and SC's Guidelines on Unit Trust Funds.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Capital risk

The capital of the Fund is represented by net assets attributable to unitholders of RM405,720,915. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the Shariah-compliant investment activities of the Fund

Fund management risk

There is the risk that the management company may not adhere to the investment mandate of the respective Fund. With close monitoring by the investment committee, back office system being incorporated with limits and controls, and regular reporting to the senior management team, the management company is able to manage such risk. The Trustee has an oversight function over management of the Fund by the management company to safeguard the interests of unitholders.

Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets and liabilities traded in an active market (such as publicly traded Islamic derivatives and Shariah-compliant securities) are based on quoted market prices at the close of trading on the year end date.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each year end date. Valuation techniques used for non-standardised Shariah-compliant financial instruments such as Islamic options, Islamic currency swaps and other over-the-counter Islamic derivatives, include the use of comparable recent arm's length transactions, reference to other Shariah-compliant instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted sukuk, for which market were or have been inactive during the financial year. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Fair value estimation (continued)

The fair values are based on the following methodology and assumptions:

- (i) The carrying value is a reasonable estimate of fair value for cash and cash equivalent.
- (ii) Ringgit-denominated unquoted sukuk are valued using fair value prices quoted by a bond pricing agency ("BPA"). Where the Manager is of the view that the price quoted by BPA for a specific unquoted sukuk differs from the market price by more than 20 basis points, the Manager may use market price, provided that the Manager records its basis for using a non-BPA price, and obtains necessary internal approvals to use the non-BPA price.

Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk.

Fair value hierarchy

The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Fair value hierarchy (continued)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>As at 30.06.2023</u>				
Financial assets at fair value through profit or loss:				
- Unquoted sukuk	-	346,175,902	-	346,175,902
	<u>-</u>	<u>346,175,902</u>	<u>-</u>	<u>346,175,902</u>

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, including collective investment schemes. The Fund does not adjust the quoted prices for these instruments.

Financial instruments that trade in markets that are considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. Level 2 instruments include unquoted sukuk.

As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note E.

The carrying value of amount due from Manager, cash and cash equivalent and all current liabilities are reasonable approximation of the fair value due to their short-term nature.

3 MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 4.00 % per annum of the NAV of the Fund calculated and accrued on a daily basis.

For the financial period from 01 January 2023 to 30 June 2023 the management fee is recognised at a rate of 0.23% per annum of the NAV of Class I, and at a rate of 0.40% per annum of the NAV of Class R, calculated on a daily basis for the financial period.

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

3 MANAGEMENT FEE (CONTINUED)

There will be no further liability to the Manager in respect of the management fee other than the amounts recognised above.

4 TRUSTEE FEE

In accordance with the Deed, the Trustee is entitled to an annual fee at a rate not exceeding 0.10% per annum of the NAV of the Fund, subject to a minimum fee of RM12,000 per annum.

The trustee fee provided in the financial statements is 0.03% per annum based on the NAV of the Fund, calculated on a daily basis for the financial year.

There will be no further liability to the Trustee in respect of the trustee fee other than the amounts recognised above.

5 TAXATION

	Financial Period from 01.01.2023 to <u>30.06.2023</u> RM
Current taxation - local	-

The numerical reconciliation between profit before finance cost and taxation multiplied by the Malaysian statutory tax rate and tax expense of the Fund is as follows:

	Financial Period from 01.01.2023 to <u>30.06.2023</u> RM
Profit before finance cost and taxation	15,085,002
Tax at applicable rate of 24%	3,620,400
Tax effect of:	
Investment income not subject to tax	(3,939,310)
Investment loss not deductible for tax purposes	178,568
Expenses not deductible for tax purposes	28,990
Restriction on tax deductible expenses for Unit Trust Funds	111,352
Taxation	-

NOMURA i-INCOME FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

6 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	As at 30.06.2023 RM
Financial assets at FVTPL:	
- Unquoted sukuk	346,175,902
	<u>346,175,902</u>
Net gain on financial assets at FVTPL comprised:	
- Net realised loss on sale of financial assets at FVTPL	(744,033)
- Net unrealised gain on changes in fair values	7,708,575
- Management fee rebate on collective investment scheme #	10,149
	<u>6,974,691</u>

In arriving at the fair value of collective investment scheme, the management fee initially paid to the Manager of collective investment scheme has been considered as part of its NAV. In order to prevent the double charging of management fee, management fee charged on the Fund's Investment in a collective investment scheme has been refunded to the Fund. Accordingly, any rebate of management fee received from the Manager of collective investment scheme is reflected as an increase in the NAV of the collective investment scheme.

Unquoted Sukuk

* On 3 June 2022, RAM lowered the credit rating of SPR Energy (M) Sdn Bhd ("SPRE") credit rating from AA3 to BBB2. The rating action by RAM was premised on the unexpected delay in carrying out the repair works of its 100MW combined-cycle gas turbine power plant located in Kimanis, Sabah. The power plant, which was performing within the stipulated parameters in 2019, suffered operational hiccups during the height of the COVID-19 pandemic in 2020, leading to forced outages that resulted in lower cash flow generated which subsequently affected its debt protection metrics. While the management had planned for the power plant to undergo rectification work in 2021, the pandemic-induced travel restrictions hindered the management from bringing in foreign technical support from overseas, resulting in an unexpected delay in rectification works.

9	NUMBER OF UNITS IN CIRCULATION (CONTINUED)	<u>30.06.2023</u> No. of units
	<u>Class R</u>	
	At beginning of the financial year	43,871,303
	Creation of units during the financial year:	
	Arising from creations	30,512,406
	Arising from distributions	909,664
	Cancellation of units	<u>(20,865,405)</u>
	At end of the financial year	<u><u>54,427,968</u></u>

10	DISTRIBUTIONS	<u>30.06.2023</u> RM
	Distributions to unitholders are from the following sources:	
	Profit income from unquoted sukuk at FVTPL	8,371,686
		<u>8,371,686</u>
	Less: Expenses	(584,758)
		<u><u>7,786,928</u></u>

During the financial year, distributions per unit were made as follows:

	<u>Gross/net distribution</u>
	<u>2023</u>
<u>CLASS I and R</u>	
	<u>RM/unit</u>
March 2023	0.0078
June 2023	0.0132

Gross distribution is derived using total income less total expenses.

Gross distribution per unit is derived from gross realised income less expenses divided by the number of units in circulation, while net distribution for unit is derived from gross realised income less expenses and taxation divided by the number of units in circulation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 01 JANUARY 2023 TO 30 JUNE 2023 (UNAUDITED) (CONTINUED)

12 TOTAL EXPENSE RATIO ("TER")

	<u>2023</u> %
TER	<u>0.14</u>

TER is derived from the following calculation:

$$\text{TER} = \frac{(A + B + C + D + E + F)}{G} \times 100$$

A	=	Management fee
B	=	Trustee's fee
C	=	Shariah Adviser's fee
D	=	Audit fee
E	=	Tax agent's fee
F	=	Other expenses
G	=	Average NAV of Fund calculated on daily basis

The average NAV of the Fund for the financial year calculated on daily basis is RM418,587,071.

13 PORTFOLIO TURNOVER RATIO ("PTR")

	<u>2023</u>
PTR (times)	<u>0.34</u>

PTR is derived from the following calculation:

(Total acquisition for the financial year + total disposal for the financial year) ÷ 2

Average NAV of the Fund for the financial year calculated on daily basis

Where: total acquisition for the financial year = RM132,092,737
total disposal for the financial year = RM155,063,981
