(1) Figures shown as ex-distribution.

(2) Total Return of the Fund and its Benchmark for a period are calculated based on the absolute return of the Fund for that period. The calculation of the Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund. The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distributions payable (if any) during the stipulated period:

- **Capital Return**= {NAV per Unit End / NAV per Unit Beginning – 1} x 100
- **Income Return**= {Income Distribution per Unit / NAV per Unit Ex-Distribution} x 100

(3) Total Expense Ratio ("TER") is calculated based on the total fees and expenses incurred by the Fund divided by the average net asset value of the Fund for the financial period calculated on daily basis.

(4) Portfolio Turnover Ratio ("PTR") is calculated based on the total acquisitions and total disposals of investment securities of the Fund for the financial period divided by the average net asset value of the Fund for the financial period calculated on daily basis.

Notes:

- (1) Prior to 1 May 2019, the Fund was managed as a wholesale fund. Hence, the aforementioned Fund data prior to 1 May 2019 reflects the data of the Fund as a wholesale fund which are subject to guidelines, restrictions and risks applicable to wholesale fund.
- (2) Annual Total Return of the Fund and its Benchmark for a period are calculated based on the absolute return of the Fund for that period. The calculation of the Annual Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund. Further details on basis of calculation and assumption made in calculating returns is as follows:

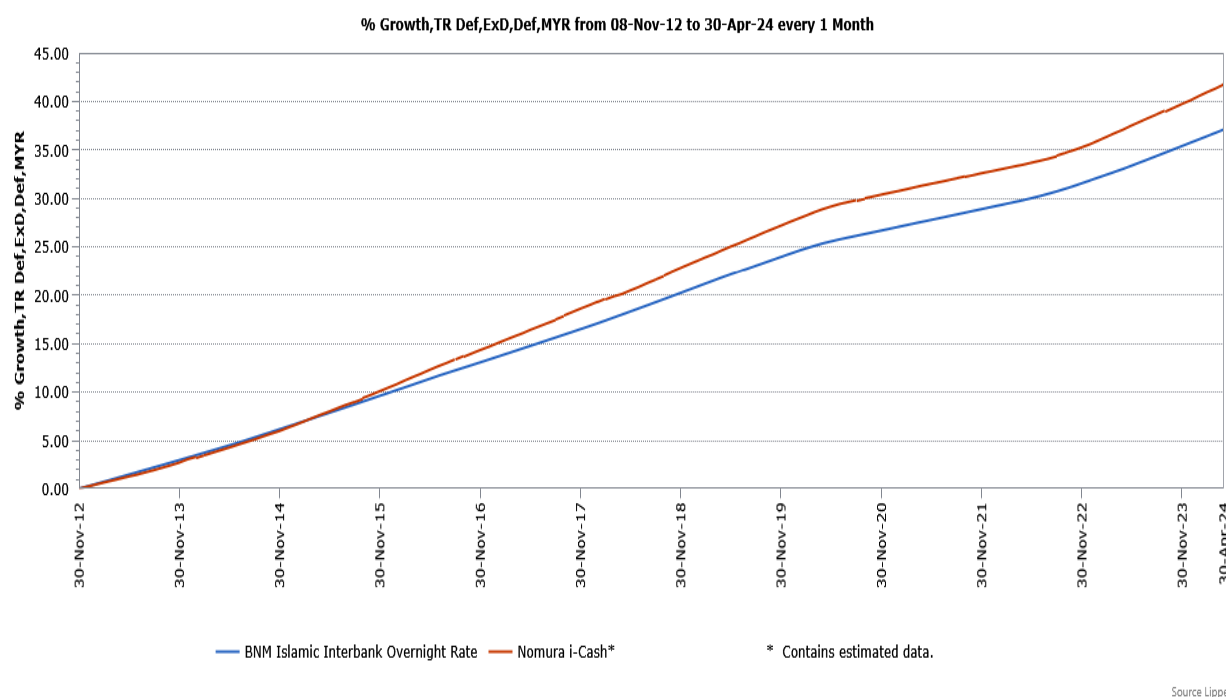

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distributions payable (if any) during the stipulated period:

- **Capital Return** = {NAV per Unit End / NAV per Unit Beginning – 1} x 100
- **Income Return** = {Income Distribution per Unit / NAV per Unit Ex-Distribution} x 100
- **Total Return** = $(1 + \text{Percentage Growth})^{1/n} - 1$

Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

3. MANAGER'S REPORT

Performance of Nomura i-Cash Fund from 8 November 2012 to 30 April 2024

Benchmark: Bank Negara Malaysia Islamic Interbank Overnight Rate

Source: The calculation of the Annual Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund.

3.1 Performance for the period from 1 May 2023 to 30 April 2024

For the period under review from 1 May 2023 to 30 April 2024, the Fund has registered 3.48% return. Compared to the Benchmark return of 3.05%, the Fund has outperformed the Benchmark by 0.43%. The Net Asset Value (“NAV”) per unit of the Fund as at 30 April 2023 was RM1.0501 compared to the NAV per unit as at 30 April 2024 of RM1.0860. On the total NAV basis, the Fund’s NAV stood at RM215.48 million as at 30 April 2024. During the period under review, the Fund has declared a total income distribution of RM 0.0004 per unit.

3.2 Review of Market for the period from 1 May 2023 to 30 April 2024

Bank Negara Malaysia (“BNM”) kept its Overnight Policy Rate (“OPR”) unchanged at 3.00% as widely expected during the review period after its 25 bps hike in May 2023. In its latest Monetary Policy Committee meeting that was held in March 2024, BNM maintained its neutral tone with risks assessed to be balanced. Global growth outlook remains subject to downside risks while BNM expects domestic growth to improve in 2024 with moderate inflationary environment. Nevertheless, domestic inflation outlook continues to be susceptible to the implementation of subsidy rationalisation measures. Separately, BNM reiterated that the ringgit is currently undervalued and that the Government and BNM are taking actions to provide support to a firmer ringgit. All in all, BNM restated that the current OPR level remains conducive to the economy and is consistent with the current assessment of the inflation and growth prospects. Following that, deposit rates have remained steady throughout the review period, after the uptick we observed in May 2023 in response to the OPR hike.

3.3 Investment Outlook

We expect deposit rates to remain stable at current levels. As such, we will remain opportunistic and lengthen duration in periods of higher deposit rates. We will continue to maintain short-term liquidity for redemption purposes.

3.4 Strategies Employed for the period from 1 May 2023 to 30 April 2024

The Fund was solely invested in Islamic deposits during the period under review. We have remained opportunistic and lengthened the Fund's duration to take advantage of the higher deposit rates. We continued to maintain short-term liquidity for redemption purposes.

3.5 Asset Allocation

Asset Allocation	30 Apr 2024	30 Apr 2023
Islamic deposits (%)	100.11 [^]	99.84
Cash and other net assets (%)	(0.11)	0.16
Total (%)	100.00	100.00

There were no significant changes on the Fund's asset allocation during the financial year under review.

[^]This is temporarily due to interest accrued not immediately reflected in the cash position.

3.6 Securities Lending or Repurchase Transactions

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

3.7 Income Distribution

The Manager has distributed a total of gross/net distribution of RM0.0004 per unit for unit holders of the Fund over the financial year ended 30 April 2024.

The Net Asset Value per Unit prior and subsequent to the distributions were as follows:

Cum-Distribution Date	Cum-Distribution (RM)	Ex-Distribution Date	Ex-Distribution (RM)	Distribution per Unit (RM)

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with the MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note I.

(a) Standards and amendments to existing standards effective 1 January 2023

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 May 2023 that have a material effect on the financial statements of the Fund.

(b) New standards, amendments and interpretations effective after 1 January 2023 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 May 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

B PRESENTATION AND FUNCTIONAL CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's presentation and functional currency.

C INCOME RECOGNITION

Profit income from Islamic deposits with licensed financial institutions is recognised on an accrual basis using the effective profit method.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

D TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable income earned during the financial year.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss ("FVTPL"), and
- those to be measured at amortised cost.

The Fund classifies its Shariah-compliant investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Fund's debt securities are solely principal and profit. However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalent and amount due from Manager as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies accrued management fee, amount due to Trustee, amount due to Shariah Adviser, amount due to Manager and other payables and accruals as financial liabilities measured at amortised cost.

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value.

Financial liabilities are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are de-recognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are de-recognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement (continued)

Islamic deposits with licensed financial institutions are stated at fair value. Due to short-term nature of the Islamic deposits, the cost plus accrued profit calculated based on the effective profit rate method over the period from the date of placement to the date of maturity of the respective Islamic deposits is the reasonable estimate of fair value.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

(iii) Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be closed to zero as these Shariah-compliant instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit-impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

F CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalent comprises cash and bank balance that is readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

G UNITHOLDERS' CAPITAL

The unitholders' contributions to the Fund meet the criteria of the definition of puttable instrument to be classified as equity instruments under MFRS 132 'Financial Instruments: Presentation'. These criteria include:

- The units entitle the holders to a pro-rata share of the Fund's net asset value ("NAV");
- The units are the most subordinated class and class features are identical;
- There is no contractual obligation to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units; and
- The total expected cash flows from the units over its life are based substantially on the change in the net asset of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if the unitholder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net asset attributable to unitholders with the total number of outstanding units.

H DISTRIBUTIONS

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a deduction from realised reserves. A proposed distribution is recognised as a liability in the year in which it is approved by the Trustee.

I CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimate of fair value of Islamic deposits with licensed financial institutions

In undertaking any of the Fund's Shariah-compliant investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission's ("SC") Guidelines on Unit Trust Funds.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024

1 INFORMATION ON THE FUND

Nomura i-Cash Fund (the "Fund") was constituted as a wholesale fund pursuant to the execution of a Master Deed dated 11 June 2012, First Supplemental Master Deed dated 23 August 2013, a Second Supplemental Master Deed dated 23 October 2015, a Third Supplemental Master Deed dated 17 January 2017 (the "Initial Deeds") entered into between Nomura Islamic Asset Management Sdn Bhd (the "Manager") and Deutsche Trustees Malaysia Berhad (the "Trustee").

Pursuant to a Unit Holders' meeting held on 6 December 2018, it was resolved, inter alia, that the Manager and/or the Trustee be authorised to (i) change the structure of the Fund from a wholesale fund into a retail fund; and (ii) to execute a deed and/or supplemental deed and do all things necessary to incorporate the resolution on a date to be decided at the absolute discretion of the Manager in consultation with the Trustee.

A replacement deed dated 22 April 2019 in respect of the Fund (the "Principal Deed") was entered into between the Manager and the Trustee to govern the Fund and replace in its entirety the Initial Deeds and the provision of the Initial Deeds. The Fund was converted into a Unit Trust Fund on 1 May 2019.

The First Supplemental Deed dated 22 June 2022 was entered into between Nomura Islamic Asset Management Sdn Bhd (the "Existing Manager"), Nomura Asset Management Malaysia Sdn Bhd (the "Manager") and Deutsche Trustees Malaysia Berhad (the "Trustee") to appoint Nomura Asset Management Malaysia Sdn Bhd as the Manager of the Fund effective 1 October 2022.

The Fund continue its operations until terminated by the Manager or the Trustee as provided under the Principal Deed and the First Supplemental Deed.

The Fund seeks to provide investors with regular income distributions through investments in Islamic deposits, Islamic placement of money at call, general investment accounts and Islamic negotiable instruments.

The Manager is a company incorporated in Malaysia. The principal activities of the Manager are establishment and management of unit trust funds and asset management including providing fund management services to private clients.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

The Fund is exposed to a variety of risks which include market risk (inclusive of interest rate risk), liquidity risk, credit/default risk, capital risk and fund management risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Deed and SC's Guidelines on Unit Trust Funds.

Interest rate risk

Interest rate risk is the risk that the value of the Fund's Shariah-compliant investments and its return will fluctuate because of changes in interest rates.

Interest rate is a general economic indicator that will have an impact on the management of the Fund. The Fund's exposure to the interest rate risk is mainly confined to short-term placements with licensed financial institutions. The Manager overcomes the exposure by way of maintaining Islamic deposits on short term basis.

The Fund's Islamic deposits with licensed financial institutions are short-term in nature. Therefore, exposure to interest rate fluctuations is minimal.

As at the date of the statement of financial position, all the financial asset and financial liabilities have no exposure to interest rate movement except for Islamic deposits with licensed financial institutions of RM215,729,547 (2023: RM163,307,290) which have maturities of less than one year.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The Fund maintains sufficient level of Islamic liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unitholders. Islamic liquid assets comprise cash, Islamic deposits with licensed financial institutions and other Shariah-compliant instruments which are capable of being converted into cash within 7 days. The Fund aims to reduce its liquidity risk by maintaining a prudent level of Islamic liquid assets.

Credit/default risk

Credit risk refers to the ability of an issuer or a counter party to make timely payments of profit or principal payment on the maturity date. This may lead to a default in the payment of principal and profit and ultimately a reduction in the value of the Fund. In the case of the Fund, the Manager will endeavor to minimise the risk by selecting only issues with prescribed and acceptable credit ratings.

Credit risk arising from placements of Islamic deposits with licensed financial institutions is managed by ensuring that the Fund will only place Islamic deposits in reputable licensed financial institutions.

For amount due from Manager, the settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

Capital risk

The capital of the Fund is represented by equity consisting of unitholders' capital of RM 204,418,144 (2023: RM158,259,288) and retained earnings of RM11,064,125 (2023: RM5,301,963). The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the Shariah-compliant investment activities of the Fund.

Fund management risk

There is the risk that the management company may not adhere to the investment mandate of the respective Fund. With close monitoring by the investment committee, back office system being incorporated with limits and controls, and regular reporting to the senior management team, the management company is able to manage such risk. The Trustee has an oversight function over management of the Fund by the management company to safeguard the profits of unitholders.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets and liabilities traded in active market (such as publicly traded Islamic derivatives and trading Shariah-compliant securities) are based on quoted market prices at the close of trading on the year end date.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each year end date. Valuation techniques used for non-standardised Shariah-compliant financial instruments such as Islamic options, Islamic currency swaps and other over-the-counter Islamic derivatives, include the use of comparable recent arm's length transactions, reference to other Shariah-compliant instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted debt securities, for which market were or have been inactive during the financial year. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds.

The fair values are based on the following methodology and assumptions:

- (i) Bank balance and Islamic deposits with licensed financial institutions with maturities less than 1 year, the carrying value is a reasonable estimate of fair value.
- (ii) The carrying value less impairment provision of receivables and payables are assumed to approximate their fair values. The carrying value of the financial assets and financial liabilities approximate their fair value due to their short term nature.

Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk.

NOMURA i-CASH FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Fair value hierarchy

The Fund adopted MFRS 13 "Fair Value Measurement" in respect of disclosures about the degree of reliability of fair value measurement. This requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

Financial assets at fair value through profit or loss:				
- Islamic deposits with licensed financial institutions		- 163,307,290	- 163,307,290	

Financial instruments that trade in markets that are considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing solutions supported by observable inputs are classified within Level 2. Level 2 instruments includes Islamic deposits with licensed financial institutions.

As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies of valuation of these financial assets are stated in Note E.

The carrying value of cash and cash equivalent, amount due from Manager and all current liabilities are reasonable approximation of the fair value due to their short-term nature.

3 MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 3.00% per annum of the NAV of the Fund calculated and accrued on a daily basis.

For the financial year ended 30 April 2024, the management fee is recognised as at rate of 0.20% (2023: 0.20%) per annum on the NAV of the Fund, calculated on a daily basis for the financial year.

INDEPENDENT AUDITORS' REPORT TO THE UNITHOLDERS OF NOMURA I-CASH FUND

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of Nomura i-Cash Fund ("the Fund") give a true and fair view of the financial position of the Fund as at 30 April 2024, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 30 April 2024, and the statement of comprehensive income, statement of changes in net asset value and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 1 to 23.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises the Manager's Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

INDEPENDENT AUDITORS' REPORT TO THE UNITHOLDERS OF NOMURA I-CASH FUND (CONTINUED)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**INDEPENDENT AUDITORS' REPORT
TO THE UNITHOLDERS OF NOMURA I-CASH FUND (CONTINUED)**

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
