Key Risks	
What are the possible outcomes of my investment?	
<ul style="list-style-type: none"> The value of the Fund and the income that you may receive from your investment may fall or rise. There may be a risk that you may lose some or all of your investments. 	
<p><i>FOR INFORMATION CONCERNING RISK FACTORS (INCLUDING THE SPECIFIC RISKS OF THE TARGET FUND), WHICH YOU SHOULD CONSIDER, PLEASE REFER TO CHAPTER 5, "UNDERSTANDING THE RISKS OF THE FUND AND THE TARGET FUND" OF THE PROSPECTUS (WHICH MAY BE AMENDED FROM TIME TO TIME).</i></p>	
<u>Specific Risks of the Fund</u>	
Concentration Risk	
As the Fund invests at least 85% of its NAV in the Target Fund, it is subject to concentration risk as the performance of the Fund would be dependent on the performance of the Target Fund.	
Country Risk	
The investment of the Fund may be affected by risk specific to the country in which it invests in. Such risks include changes in the country's economic, social and political environment. The value of the assets of the Fund may also be affected by uncertainties such as currency repatriation restrictions or other developments in the law or regulations of the country in which the Fund invest in, i.e. Ireland, the domicile country of the Target Fund.	
Investment Manager of the Target Fund Risk	
The Fund will invest in the Target Fund managed by a foreign asset management company. This risk refers to the risk associated with the Investment Manager, which include:	
<ol style="list-style-type: none"> i) the risk of non-adherence to the investment objective, strategy and policies of the Target Fund; ii) the risk of direct or indirect losses resulting from inadequate or failed operational and administrative processes and systems by the Investment Manager; and iii) the risk that the Target Fund may underperform its benchmark due to poor investment decisions by the Investment Manager. 	
Liquidity Risk	
Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.	
The liquidity risk of the Fund also refers to our ability as manager to honour redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. This is subject to the Fund's holding of adequate liquid assets, its ability to borrow on a temporary basis as permitted by the relevant laws and/or its ability to redeem the shares of the Target Fund at fair value. Should there be inadequate liquid assets held, the Fund may not be able to honour requests for redemption or to pay Unit Holders' redemption proceeds in a timely manner and may be forced to dispose the shares of the Target Fund at unfavourable prices to meet redemption requirements.	
Default Risk	
Default risk relates to the risk that an issuer of a money market instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the money market instruments. If the financial institution which the Fund places deposits with defaults in payment or become insolvent, the Fund may also suffer capital losses with regards to the capital invested and interests foregone, causing the performance of the Fund to be adversely affected. This could affect the value of the Fund as up to 15% of the NAV of the Fund may be invested in deposits, money market instruments cash and/or derivatives for hedging purposes.	
OTC Counterparty Risk	
OTC counterparty risk is the risk associated with the other party to an OTC derivative transaction not meeting its obligations. If the counterparty to the OTC derivative transaction is unable to meet or otherwise defaults on its obligations (for example, due to bankruptcy or other financial difficulties), the Fund may be exposed to significant losses greater than the cost of the derivatives. The risk of default of a counterparty is directly linked to the creditworthiness of that counterparty. Should there be a downgrade in the credit rating of the OTC derivatives' counterparty, we will evaluate the situation and reassess the creditworthiness of the counterparty. We will take the necessary steps in the best interest of the Fund.	

Currency Risk

As the Base Currency is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are also exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class) will affect the Unit Holder's investments in those Classes (other than USD Class). The impact of the exchange rate movement between the Base Currency and the currency denomination of the Class (other than USD Class) may result in a depreciation of the Unit Holder's holdings as expressed in the Base Currency.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Classes not denominated in USD. Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged but it does not entirely eliminate currency risk between the Class and the Base Currency. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging will be borne by the Class being hedged and may affect returns of the Class being hedged.

Suspension or Deferral of Redemption Request Risk

Having considered the best interests of Unit Holders, the redemption requests by the Unit Holders may be subject to suspension due to exceptional circumstances stated under Section 7.8 of this Prospectus. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risks inherent to the Fund.

In addition, if the number of shares of the Target Fund in respect of which redemption requests have been received on a dealing day of the Target Fund exceeds one tenth or more of the total number of shares in issue of the Target Fund or exceed one tenth of the net asset value of the Target Fund, the directors of the Company may at their discretion refuse to redeem any shares of the Target Fund in excess of the aforesaid amount, and if they so refuse, the redemption requests on that dealing day of the Target Fund will be reduced pro rata and those shares not yet redeemed will be redeemed on the subsequent dealing day of the Target Fund until all the shares in respect of the redemption requests have been redeemed. In such situation, the Fund may be affected if the Fund does not have sufficient liquidity to meet redemption requests from Unit Holder. Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risks inherent to the Fund. As the Fund may hold up to 15% of its NAV in liquid assets such as deposits, money market instruments, cash and/or derivatives for hedging purposes, this risk is mitigated due to the level of liquidity that the Fund has.

Risks Associated With the Use of Accretion or Amortised Cost Accounting

We are using accretion or amortised cost accounting to value money market instruments with remaining term to maturity of not more than 90 days at the time of acquisition. Accretion or amortised cost accounting is an accounting process used to adjust the value between the purchase date and maturity date of a money market instruments that has been bought at a discounted rate or premium. Accretion is the accumulation of paper value on a discounted money market instruments until it reaches maturity. Where amortisation is used to calculate the yield at any given time of a money market instruments bought at a premium, it is the writing off of the investment's premium over its projected life until maturity.

We have delegated the fund accounting and valuation services of the Fund to the Trustee. There may be a possibility of incorrect valuation performed by the Trustee due to human error or system failure. To mitigate this risk, we have our own set of accretion or amortised cost accounting to reconcile the accretion or amortised cost performed by the Trustee on a daily basis. Should the difference in valuation exceeds the threshold of 0.05%, we will perform an investigation on the Trustee's valuation.

Suspension of the Target Fund Risk

If the right of the Fund to redeem its shares of the Target Fund is temporarily suspended, the Fund may also be affected if the Fund does not have sufficient liquidity to meet redemption request from Unit Holder. In such situation, we may suspend the redemption of Units of the Fund and any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension. However, this risk is mitigated as the Fund may hold up to 15% of its NAV in liquid assets such as deposits, money market instruments, cash and/or derivatives for hedging purposes.

THE ABOVE SHOULD NOT BE CONSIDERED TO BE AN EXHAUSTIVE LIST OF THE RISKS WHICH INVESTORS SHOULD CONSIDER BEFORE INVESTING INTO THE FUND. INVESTORS SHOULD BE AWARE THAT AN INVESTMENT IN THE FUND MAY BE EXPOSED TO OTHER RISKS FROM TIME TO TIME. YOU SHOULD RELY ON YOUR OWN EVALUATION TO ASSESS THE MERITS AND RISKS OF AN INVESTMENT. YOU SHOULD READ AND UNDERSTAND THE CONTENTS OF THE PROSPECTUS AND, IF NECESSARY, CONSULT YOUR ADVISER(S) BEFORE MAKING AN INVESTMENT DECISION.

	USD Class	
Other Fees and Expenses	Only the expenses (or part thereof) which are directly related and necessary to the operation and administration of the Fund or each Class may be charged to the Fund or each Class respectively. All expenses are apportioned to each Class based on the multi-class ratio. As the Fund invests in the shares of the Target Fund, there are other fees and expenses incurred at the Target Fund level which is set out in detail under "Fees and Charges of the Target Fund" at Chapter 4 of the Prospectus.	
Valuation of Investment		
<p>The Fund is valued once every Business Day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of the next Business Day. As such, the daily price of the Fund for a particular Business Day will not be published on the next Business Day but will instead be published 2 Business Days later (i.e., the price will be 2 days old). The daily NAV per Unit of the Fund is available on https://www.nomura-asset.com.my. You may also request the daily NAV per Unit from the distributor from whom you invested with.</p>		
Exiting from Investment		
Submission of Redemption Application	<p>You may redeem your Units by completing a redemption application form and returning it to us on any Business Day between 9:00 a.m. to 5:30 p.m. However, the cut-off time is 4:00 p.m. Any application form which is received by us after the cut-off time will be deemed to have been received on the following Business Day and will be processed on the next Business Day. Our authorised distributors may have an earlier cut-off time. Please check with the respective authorised distributors for their respective cut-off time.</p>	
	<p>Redemption of Units must be made in terms of Units and the minimum Units for redemption is 1,000 Units. There is no restriction on the frequency of redemption. However, you will need to comply with the minimum Units held (which may be changed at our discretion), otherwise all the remaining Units you hold in the Fund will be redeemed automatically.</p>	
Payment of Redemption Proceeds	<p>As the Fund is a feeder fund offering multiple classes of Units denominated in currencies that are different from the Base Currency, the proceeds from the sale of the Fund's assets may be subject to currency conversion before the redemption proceeds is paid to you. You will receive the redemption proceeds within 5 Business Days from the Fund's receipt of the redemption proceeds from the Target Fund via telegraphic transfer transferred to your bank account, which will be within 9 Business Days from our receipt of your redemption application provided that all documentations are complete and verifiable as:</p> <p>(i) the Fund will only be receiving the proceeds from the sale of the Fund's assets on the 4th Business Day; and</p> <p>(ii) the proceeds from the sale will be converted to the currencies of the respective classes of Units and would only be available in the Fund's account on the 6th Business Day, from our receipt of your redemption application.</p>	
	<p>Where there is a suspension of dealing in Units by the Fund, due to exceptional circumstances as disclosed in Section 7.8 of this Prospectus (which resulted from the suspension of dealing by the Target Fund) the redemption application from the Unit Holders will be accepted but will not be processed. This will result in the delay of processing the redemption application and such redemption application will only be processed on the next Business Day once the suspension is lifted. In this regard, you will be paid within 9 Business Days from the next Business Day after the suspension of dealing in Units is lifted. However, for redemption application that has been accepted prior to the suspension, we will process the redemption application and make the redemption application to Unit Holder within 9 Business Days from the day that redemption application is received by us.</p> <p>In the event there is a deferral payment from the Target Fund, such limitation will be applied pro rata to all Unit Holders who have validly made a redemption request on such Business Day. The Manager will notify those Unit Holders whose redemption requests are</p>	

	<p>not processed in full due to the above circumstance within 2 Business Days following the day when the redemption requests are received.</p> <p>Please note that if the conditions for redemptions stated above are imposed, the Unit Holders' redemption proceeds will be calculated based on valuation points at which when the Target Fund makes further proceeds available to the Fund. Accordingly, under such circumstances, the Unit Holders will receive the redemption proceeds within 5 Business Days from the Fund's receipt of the redemption proceeds from the Target Fund.</p> <p>Where Units are held jointly, payment will be made to the person whose name appears first in the register of Unit Holders. Payment can only be made in the same currency as per the Class which you have invested in. Any bank charges or fees incurred due to a withdrawal by way of telegraphic transfer will be borne by you.</p>
